

AANA EDUCATION FOUNDATION

SEEING BEYOND THE SCOPE

LEAVE A LEGACY

Your Legacy, AANA's Future

One of the most impactful ways to donate in one's career is making a legacy gift. Legacy giving ensures the vital support needed will be sustained and transform the Foundation's work for generations to come. Through your generosity, AANA and the Foundation will further shared goals into the future.

- Estate Planning: Wills, Life Insurance or Planned Bequests
- Donor Advised Funds (DAF)
- Qualified Charitable Distribution (QCD)
- Charitable Remainder Trust

For more information or questions about how you can make a legacy gift, please contact the Foundation at 847-292-2262.

WHO WE ARE

Providing Lasting Support Through Donations

Established in December 2007 as an independent 501(c)(3) corporation separate from AANA, the AANA Education Foundation was developed as a nonprofit that would facilitate contributions as well as assist AANA's educational activities by way of funding. The Foundation would be dedicated to supporting education, research and advancement in arthroscopy and minimally invasive surgery. Today, the Foundation can do just that thanks to contributions from generous donors and industry partners.

The Foundation supports these advancements through offering scholarships for Orthopaedic Surgeons to attend cutting-edge training opportunities; helping fund important opportunities such as AANA Research Grants, the AANA Traveling Fellowship Program and the AANA Health Policy Fellowship; and promoting the minimally invasive surgical innovations of tomorrow.

Thanks to the generosity of donors, the Foundation will continue to advance orthopaedic research, education and innovation that expands the knowledgebase of Orthopaedic Surgeons across the globe and in turn improves their patient outcomes.

WHAT WE DO

The Foundation is a key partner in AANA's vision to be the global leader in arthroscopy and minimally invasive surgical education. Through our donors' generous support, we help fund the following:

EDUCATION

AANA Lab Course/AANA Annual Meeting Scholarships

The Foundation offers annual scholarship opportunities for AANA members (domestic and international) to attend state-of-the-art lab courses and training, as well as scholarships for Orthopaedic Residents to attend the AANA Annual Meeting. Scholarships fund not only registration costs but also reimburse a portion of the travel costs to attend. Without these scholarships, hundreds of Orthopaedic Surgeons, Arthroscopy Fellows and Orthopaedic Residents would not have access to fundamental training that improves their skill set and technique.

AANA Traveling Fellowship Program

The AANA Traveling Fellowship Program offers a once-in-a-lifetime opportunity for Orthopaedic Surgeons to travel across North America to interact with and learn from leaders in arthroscopy and minimally invasive surgery.

AANA Health Policy Fellowship

Members can stay informed on regulatory and compliance issues when advocacy is put into action. The AANA Health Policy Fellowship exposes the selected Fellow to AANA's continued advocacy efforts within the health care policy arena.

RESEARCH

The Foundation funds a portion of AANA Research Grants for clinical or basic research. Multicenter studies, which the Foundation supports, are rigorous projects that reveal key information, ultimately improving an Orthopaedic Surgeon's quality of care.

INNOVATION

The Foundation is proud to help underwrite various innovative programs for AANA members and the orthopaedic community at-large.

HOW YOU CAN HELP

Help advance the future of arthroscopy and minimally invasive surgery. When you donate to the Foundation, you make an impact that truly lasts a lifetime.

The following options are all available ways to give:

- Donate online at aana.org/donate
- Monthly recurring giving
- Quarterly recurring giving
- Workplace giving or matching gifts
- Stocks and securities
- Donor Advised Funds (DAF)

Scan the code or visit aana.org/donate to make a contribution today.
